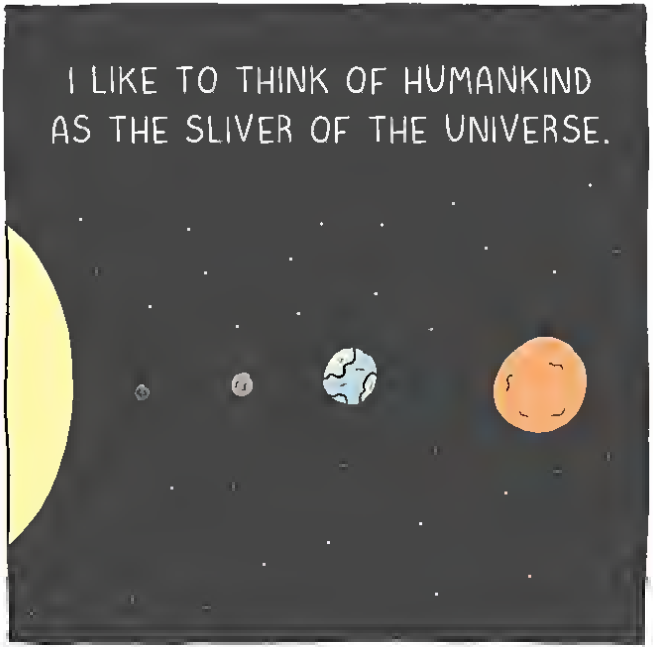
THE
GENTLEMAN'S
ARMCHAIR

YOU KNOW, MANY SCIENTISTS INTERPRET THE EARTH'S RELATIVE SIZE TO THE UNIVERSE AS AN INDICATION OF HUMANKIND'S INSIGNIFICANCE.

THAT'S NOT HOW I SEE IT.
SIZE IS NOT THE RULER AGAINST WHICH WE SHOULD JUDGE SOMETHING'S VALUE.

ANYONE WHO HAS HAD A SLIVER UNDERSTANDS THAT SOMETHING DOES NOT HAVE TO BE LARGE IN SCALE TO CAUSE A WHOLE LOT OF PAIN AND DISCOMFORT.



I LIKE TO THINK OF HUMANKIND
AS THE SLIVER OF THE UNIVERSE.

ONE SHOULD NEVER UNDERESTIMATE HUMANKIND'S CAPACITY TO ROYALLY SCREW THINGS UP.
